COMFORT door station multitouch 5,7"

COMFORT door station multitouch with intuitive 5,7" touch display

Multifunctionality in its most beautiful form – audio/video door station, access control and information system at once. The COMFORT series excels especially with its easy operation via a multi touch color display and thus is attractive to all age groups – in residential areas and student residences, office buildings, joint practices or underground car park accesses.

High-quality surface
of safety glass +

Large 14.5 cm (5.7")
TFT color display
(640 x 480 pixels) +

intuitive operation +

+ With build in
color camera

+ Labeling can be
customized
(also in color)

+ Operation via
multitouch display

+ Available colors:
white and black

195 x 195 x 4 mm / Glas dimensions
184 x 184 x 65 mm / Installation dimensions
179 x 179 x 65 mm / In-wall dimensions

- 6-wire video/audio technology
- Compatible with all SKS BUS audio and video indoor stations
- 14.5 cm (5.7", 640 x 480 pixels) sized multitouch display
- Easy and intuitive operation
- More or less barrier-free
- Configuration at the device or via web interface
- Bell button as text or vector image (jpg, png or svg)

- Code lock function with random number display
- Various levels possible for e. g. different departments or floors
- Protected against vandalism by safety glass
- Two types of installation: stand alone in-wall or cavity wall, here the COMFORT multitouch protrudes just 8 mm over the wall, alternatively it can be installed flush-mounted in an in-wall housing with stainless steel front panel, a steele or post box system

More or less **barrier-free** following **DIN 18040**

6-wire

Item no.	Description	Color

*To be installed into item 600057 or into customized door stations individually designed by SKS.
Dimensions: width x height x depth

NEW Screwless installation

Flush-mounted installation

For flush-mounting and an optimal protection against vandalism we recommend to install the COMFORT in a screwless housing, consisting of a stainless steel front panel and an in-wall housing.

275 x 412 x 3 mm / Panel dimensions
255 x 392 x 60 mm / Housing dimensions

Functional overview

Welcome screen

If a person approaches the door station, the color display is switched on automatically.

Finding names

Names can be searched by wiping or scrolling. By simply touching the name you choose it and activate the door bell. The visitor gets an optical feedback on the actual function.

Functions displayed – barrier-free according to DIN 18040

The hearing-impaired get symbolic and textual status information on screen: After ringing „Ruf gesendet“ (Call has been sent) appears on the display. When the call is answered „Sie sprechen mit...“ (You are talking to) is displayed and when the door opener is activated it says „Die Tür wurde geöffnet“ (The door has been opened).

Comfortable search function

For larger residential estates or office buildings names can be found easily and safely via the search function with a virtual key pad.

Virtual code lock – maximum security

Using the virtual code lock function the COMFORT door station may also function as a door opener. Thanks to the randomly displayed number pad with digits 0 ... 9 – for every use the numbers are displayed in a different order – a maximum security against being spied on is guaranteed.

IP versions

COMFORT door stations multitouch are also available in an IP version. Further information can be found under www.sks-kinkel.de/comfort-ip

All information can also be found
in our COMFORT film.
